DRAINTECH

Draintech

Dal 1999 produciamo ingranaggi e componenti per la **trasmissione meccanica di precisione**, inclusi riduttori su disegno del cliente.

La società, che occupa attualmente una superficie complessiva di 8000 mq suddivisa in 3 unità produttive, è in continua crescita con una **speciale devozione all'export** e si avvale delle più recenti macchine di produzione e collaudo.

Mettiamo a disposizione della nostra clientela **personale e tecnici di pluriennale esperienza**, fortemente motivati nell'ottica della continua crescita e soddisfazione dei nostri clienti.

*Since 1999 we manufacture gears and components for **mechanical transmissions** including drives on customer's drawings.*

*The factory currently covers a surface of 8000 sqm shared over 3 manufacturing plant. A continuous growth with a **special devotion to export** and uses of the most' recent production and testing equipment are they key factors towards the full customer satisfaction we have reached over these years.*

*We made available to our customers a **technical staff with top class experience** and certainly strongly motivated perspective of continuous growth and satisfaction of our clients.*

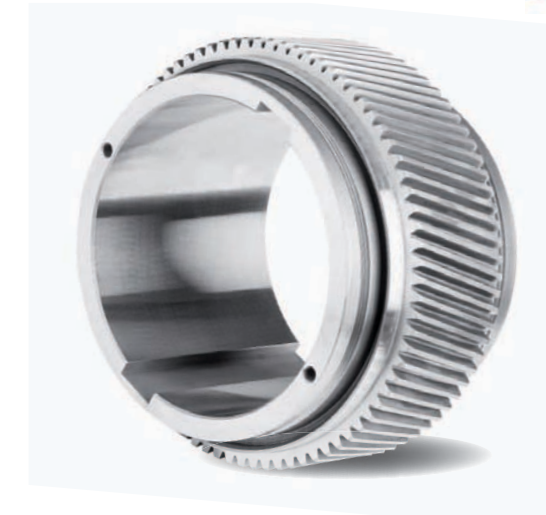

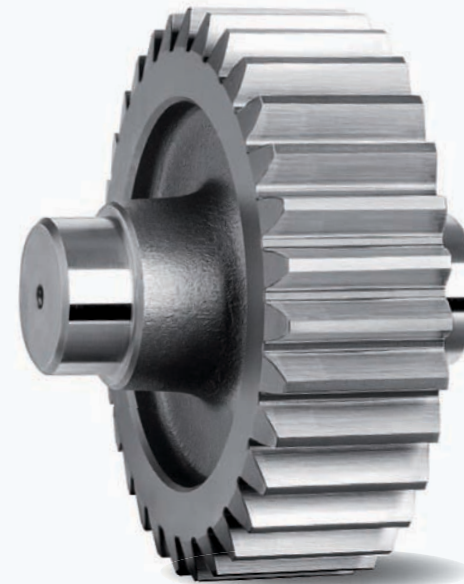

spur helical gears

MAIN FEATURES

Max module	14
Max diam.	800
Max lenght	1500

splined shafts bores

MAIN FEATURES

Grinding wheel

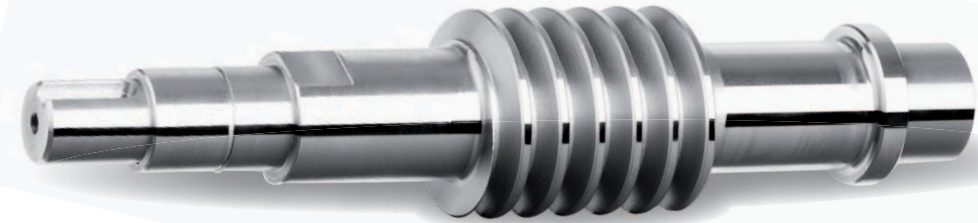

Min diam.	35mm
Max lenght	1200

EDM (wire burning)

Max diam.	300
Max hight	210

worm and worm wheels

MAIN FEATURES

Module	0,5-10
Diameters	15-400
Max. lenght	1000

bevel gears

MAIN FEATURES

	Gleason spiral	Gleason straight	Klingelnberg HPGS
Max module	18	10	10
Max diam.	700	500	750
